Meteo-France and **Romanian National Meteorological Administration**, as local organizer, are pleased to announce:

1st AROME TRAINING COURSE

to be held in **Romania** between the 21st and 25th of November 2005.

Location: Bucharest or Poiana Brasov (to be defined soon)

It will focus on the most important points for running AROME in forecast mode, considering both theoretical and practical aspects of:

- Meso-NH physics
- ALADIN NH dynamics
- AROME prototype, including the externalized surface module

The AROME training course is open to all SRNWP groups.
